

SQTR's - Specialty Qualification Training Records

The task guides are what give the instructions for each individual task on the SQTR's. There are three of these which are specific to each area of Emergency Services. You can click the links below and download a PDF version of the Task Guides.

SQTR'S are the forms that track what is needed for each Operations training position. You can use these forms on the field training exercises to document on paper the items that you qualified in. This is needed because the SET (Skills Examiner Trainer) has to sign off at the time of the training. You can then bring the paper back and enter the information into E-Services at your convenience.

Clicking on any of the titles will open an Adobe PDF File that you can save or print for your use.
